**Context:** Dig Deep Farms (DDF) is an urban farm social enterprise operated within the Deputy Sheriff’s Activity League (DSAL), which is one of the major initiatives of the Youth and Family Services Bureau of Crime Prevention Unit at the Alameda County Sheriff’s Office. DDF is an active, evolving venture anchoring and leading the way in an intentional portfolio of initiatives to repair, strengthen, and integrate multiple aspects of economic activity and capacity and community life more broadly. The foundational premise underlying the work of the Youth and Family Services Bureau is that diminished community well-being and public safety are the intertwined consequences of an array of systemic factors including: poverty, lack of jobs, barriers to entrepreneurship, poor health and limited health care resources, lack of access to healthy food, inadequate community infrastructure (places to be, work, play), and more.
